Case IPR2014-00216  
Patent 6,179,053 B1

**NOTICE OF APPEAL TO THE COURT OF APPEALS FOR THE  
FEDERAL CIRCUIT**

Patent owner Oil States Energy Services, LLC ("OSES") in the above-identified matter hereby serves notice of appeal under 35 U.S.C. §§ 141 and 142 to the United States Court of Appeals for the Federal Circuit from the final written decision of the Patent Trial and Appeal Board ("Board"), rendered May 1, 2015.

In accordance with 37 C.F.R. § 90.2(a)(3)(ii), OSES further indicates that the issues on appeal include, but are not limited to: (1) the Board's construction of the terms of the challenged claims; (2) the Board's application of the disputed claim construction (including unsupported conclusions and improper examination and analysis of the evidence) and determination of unpatentability of the challenged claims; (3) the Board's denial of OSES's Motion to Amend the challenged claims; (4) the Board's current claim construction standard, including

but not limited to the incompatibility of that standard with congressional intent and administrative law (APA) requirements; and (5) the arbitrary and capricious nature of the rules and procedures that currently govern an *inter partes* review proceeding.

A copy of the final written decision being appealed is attached.

Dated: June 11, 2015

Respectfully submitted,

/C. Erik Hawes/
