35. APGD holds approved New Drug Application (“NDA”) No. 202611 for Myrbetriq® extended-release tablets, 25 mg and 50 mg, which contain the active ingredient, mirabegron. The FDA approved NDA No. 202611 on June 28, 2012 for both the 25 mg and 50 mg extended-release Myrbetriq® tablets. In addition to the '117, '049, '474 and '872 patents, the Orange Book for NDA No. 202611 also lists, *inter alia*, U.S. Patent No. 6,346,532 (“the '532 patent”) covering the mirabegron compound and pharmaceutical compositions containing mirabegron.

40. APGD has contracted with Astellas Pharma US, Inc., a subsidiary of Astellas Pharma Inc., to market and sell Myrbetriq® extended-release tablets, 25 mg and 50 mg, in the United States on its behalf.

#### **F. Infringement by Aurobindo**

41. On information and belief, Aurobindo submitted to the FDA ANDA No. 209413 under Section 505(j) of the Act, 21 U.S.C. § 355(j), seeking FDA approval to engage in the commercial manufacture, use, offer for sale, sale, and/or importation of generic mirabegron extended-release tablets in a 50 mg strength ("ANDA Product"), as a pharmaceutical composition in an oral dosage form for the treatment of overactive bladder prior to the expiration of the '117, '049, '474 and '872 patents.

42. On information and belief, Aurobindo intends to engage in the commercial manufacture, use, offer for sale, sale, and/or importation into the United States of the ANDA Product if and when it receives FDA approval to do so.

43. The Notice Letter advised Plaintiffs that Aurobindo submitted ANDA No. 209413 to the FDA seeking approval to manufacture, use, offer to sell, sell, and/or import the

ANDA Product prior to the expiration of the '117, '049, '474 and '872 patents. The Notice Letter advised Plaintiffs that Aurobindo's ANDA submission included a certification under 21 U.S.C. § 355(j)(2)(B)(iv) that, in Aurobindo's opinion, the claims of the '117, '049, '474 and '872 patents are invalid, unenforceable and/or not infringed. The Notice Letter does not provide notice that ANDA No. 209413 seeks FDA approval to engage in the commercial manufacture, use, offer for sale, sale, and/or importation of generic mirabegron extended-release tablets in a 25 mg strength. On information and belief, upon approval of ANDA No. 209413 Aurobindo will not engage in the commercial manufacture, use, offer for sale, sale, and/or importation of generic mirabegron extended-release tablets in a 25 mg strength.

44. The '532 patent is owned by Astellas Pharma Inc. and claims the compound mirabegron and compositions containing mirabegron, which is the active ingredient of Myrbetriq®. The ANDA Product is a composition that contains the compound mirabegron. On information and belief, Aurobindo made a "Paragraph III" certification with respect to the '532 patent, which includes certifying to the FDA that the '532 patent will expire on March 27, 2022, and that Aurobindo does not ask to have its ANDA approved before this date.

45. The submission of ANDA No. 209413 to the FDA constituted an act of infringement by Aurobindo of the '117, '049, '474 and '872 patents under 35 U.S.C. § 271(e)(2).

46. Plaintiffs are commencing this action within 45 days of receiving the Notice Letter pursuant to 21 U.S.C. § 355(j)(5)(B)(iii).

53. The ANDA Product and the use thereof would infringe the '049 patent under 35 U.S.C. § 271(a), including at least claims 1, 5, 9 and 13, which cover, *inter alia*, pharmaceutical compositions comprising a crystal form of mirabegron and a pharmaceutically acceptable carrier.

59. Aurobindo has knowledge of the '474 patent.

60. If the ANDA Product is approved by the FDA and is sold by Aurobindo, its use by healthcare providers and/or patients will directly infringe one or more claims of the '474 patent, including at least claims 1, 3-4, 6-7, 9-10 and 12.

69. The ANDA Product constitutes a material part of the inventions covered by the claims of the '474 patent and has no substantial non-infringing uses.

70. On information and belief, Aurobindo has had and continues to have knowledge that the ANDA Product is especially adapted for a use that infringes the '474 patent, including at least claims 1, 3-4, 6-7, 9-10 and 12.

71. On information and belief, Aurobindo has had and continues to have knowledge that there is no substantial non-infringing use for the ANDA Product.

72. Aurobindo's actions will constitute contributory infringement of the '474 patent pursuant to 35 U.S.C § 271(c).

**COUNT VI: DIRECT INFRINGEMENT OF THE '872 PATENT**

Aurobindo has acted with knowledge that the induced acts would constitute infringement of the '872 patent.

82. Aurobindo specifically intends to cause direct infringement by others, e.g., healthcare providers and/or patients.

83. If and when the FDA approves ANDA No. 209413, Aurobindo will take affirmative steps to induce infringement by, among other things, instructing healthcare providers and/or patients, through Aurobindo's proposed label, to use the ANDA Product in a manner that directly infringes one or more claims of the '872 patent, including at least claims 1, 3-4, 6, 8-9 and 11-14. 84. Aurobindo's actions will constitute inducement of infringement of the '872 patent pursuant to 35 U.S.C § 271(b).

**COUNT VIII: CONTRIBUTORY INFRINGEMENT OF THE '872 PATENT**

85. Plaintiffs incorporate by reference and reallege paragraphs 1 through 84 above as though fully restated herein.
