#### **NATURE OF ACTION**

10. This is an action for patent infringement of United States Patent Nos. 7,342,117 ("the '117 patent"), 7,982,049 ("the '049 patent"), 8,835,474 ("the '474 patent"), and RE44,872 ("the '872 patent"), arising under the United States patent laws, Title 35, United States Code. This action relates to Princeton's filing of ANDA No. 209475 under Section 505(j) of the Federal

Food, Drug and Cosmetic Act (“the Act”), 21 U.S.C. § 355(j), seeking United States Food and Drug Administration (“FDA”) approval to market generic pharmaceutical products.

**JURISDICTION AND VENUE**

11. This Court has jurisdiction over the subject matter of this action under 28 U.S.C. §§ 1331, 1338(a), 2201 and 2202.

12. This Court has personal jurisdiction over each Defendant for purposes of this civil action.

13. This Court has jurisdiction over Princeton Pharmaceutical Inc. On information and belief, Princeton Pharmaceutical Inc. is a Delaware company.

14. This Court has jurisdiction over Huahai US Inc. On information and belief, Huahai US Inc. is a wholly-owned subsidiary of Zhejiang Huahai Pharmaceutical Co., Ltd.

15. This Court has jurisdiction over Solco Healthcare US, LLC. On information and belief, Solco Healthcare US, LLC is a Delaware company.

16. This Court has jurisdiction over Zhejiang Huahai Pharmaceutical Co., Ltd. On information and belief, Zhejiang Huahai Pharmaceutical Co., Ltd. is the parent corporation of Princeton Pharmaceutical Inc., Huahai US Inc., and Solco Healthcare US, LLC.

17. On information and belief, Princeton, directly or through its affiliates and agents, develops, formulates, manufactures, markets, and sells pharmaceutical drug products, including generic drug products, throughout the United States and in this Judicial District. On information and belief, Princeton has purposefully conducted and continues to conduct business in Delaware, and Delaware is a likely destination of Princeton’s generic drug products. On information and belief, Princeton has purposefully availed itself of the rights and benefits of the laws of the State

of Delaware, having previously submitted to personal jurisdiction in this Court and having engaged in systematic and continuous contacts with the State of Delaware.

18. On information and belief, Princeton Pharmaceutical Inc., Huahai US Inc., Solco Healthcare US, LLC, and Zhejiang Huahai Pharmaceutical Co., Ltd. are agents of each other with respect to the development, regulatory approval, marketing, sale and/or distribution of generic drug products. On information and belief, the acts of Princeton Pharmaceutical Inc. complained of herein were done with the cooperation, participation, and assistance of, and at least in part for the benefit of Huahai US Inc., Solco Healthcare US, LLC, and Zhejiang Huahai Pharmaceutical Co., Ltd.

19. On information and belief, Princeton Pharmaceutical Inc. filed an abbreviated new drug application seeking approval from the FDA to market and sell pharmaceutical products containing the compound mirabegron as active ingredient, for the treatment of overactive bladder, prior to the expiration of each of the '117, '049, '474, and '872 patents.

20. This lawsuit arises in part from Princeton Pharmaceutical Inc. sending Plaintiffs, one of which is a Delaware corporate entity, a letter dated September 8, 2016 purporting to be a "Notification of Certification Pursuant to § 505(j)(2)(B)(iv) of the Federal Food, Drug and Cosmetic Act for U.S. Patent Nos. 6,562,375; 7,342,117; 7,982,049; 8,835,474; and RE44,872" ("Notice Letter"). The Notice Letter is signed by an attorney for Princeton Pharmaceutical Inc.

21. When the Notice Letter was sent, Princeton knew or should have known that: (i) APGD is a Delaware corporation; and (ii) Plaintiffs would file suit against Princeton within 45 days of receiving the Notice Letter.

22. Alternatively, assuming that the above facts do not establish personal jurisdiction over Zhejiang Huahai Pharmaceutical Co., Ltd., this Court may exercise jurisdiction

over Zhejiang Huahai Pharmaceutical Co., Ltd. pursuant to Federal Rule of Civil Procedure 4(k)(2) because (a) Plaintiffs' claims arise under federal law; (b) Zhejiang Huahai Pharmaceutical Co., Ltd. is a foreign defendant not subject to general personal jurisdiction in the courts of any state; and (c) Zhejiang Huahai Pharmaceutical Co., Ltd. has sufficient contacts with the United States as a whole, including but not limited to preparing and submitting an ANDA to the FDA and/or manufacturing and/or selling pharmaceutical products distributed throughout the United States, such that this Court's exercise of jurisdiction over Zhejiang Huahai Pharmaceutical Co., Ltd. satisfies due process.

23. Venue is proper in this Court pursuant to 28 U.S.C. §§ 1391 and 1400(b).

37. APGD holds approved New Drug Application ("NDA") No. 202611 for Myrbetriq® extended-release tablets, 25 mg and 50 mg, which contain the active ingredient, mirabegron. The FDA approved NDA No. 202611 on June 28, 2012 for both the 25 mg and 50

mg extended-release Myrbetriq® tablets. In addition to the '117, '049, '474 and '872 patents, the Orange Book for NDA No. 202611 also lists, *inter alia*, U.S. Patent No. 6,346,532 ("the '532 patent") covering the mirabegron compound and pharmaceutical compositions containing mirabegron.

38. 40. Astellas Pharma Inc. is the record owner and assignee of the '532, '117, '049, '474 and '872 patents.

41. AICL is the exclusive licensee of the '532, '117, '049, '474 and '872 patents with the rights to develop, import, market, sell, distribute, and promote any and all pharmaceutical formulations in finished package forms which contain mirabegron as the active ingredient in the United States.

42. APGD has contracted with Astellas Pharma US, Inc., a subsidiary of Astellas Pharma Inc., to market and sell Myrbetriq® extended-release tablets, 25 mg and 50 mg, in the United States on its behalf.

**F. Infringement by Princeton**

43. On information and belief, Princeton submitted to the FDA ANDA No. 209475 under Section 505(j) of the Act, 21 U.S.C. § 355(j), seeking FDA approval to engage in the commercial manufacture, use, offer for sale, sale, and/or importation of generic mirabegron extended-release tablets in 25 mg and 50 mg strengths (“ANDA Product”), as a pharmaceutical composition in an oral dosage form for the treatment of overactive bladder prior to the expiration of the ’117, ’049, ’474 and ’872 patents.

44. On information and belief, Princeton intends to engage in the commercial manufacture, use, offer for sale, sale, and/or importation into the United States of the ANDA Product if and when it receives FDA approval to do so.

45. The Notice Letter advised Plaintiffs that Princeton submitted ANDA No. 209475 to the FDA seeking approval to manufacture, use, offer to sell, sell, and/or import the ANDA Product prior to the expiration of the ’117, ’049, ’474 and ’872 patents. The Notice Letter advised Plaintiffs that Princeton’s ANDA submission included a certification under 21 U.S.C. § 355(j)(2)(B)(iv) that, in Princeton’s opinion, the claims of the ’117, ’049, ’474 and ’872 patents are invalid, unenforceable and/or not infringed.

46. The ’532 patent is owned by Astellas Pharma Inc. and claims the compound mirabegron and compositions containing mirabegron, which is the active ingredient of Myrbetriq®. The ANDA Product is a composition that contains the compound mirabegron. On information and belief, Princeton made a “Paragraph III” certification with respect to the ’532

patent, which includes certifying to the FDA that the '532 patent will expire on March 27, 2022, and that Princeton does not ask to have its ANDA approved before this date.

47. The submission of ANDA No. 209475 to the FDA constituted an act of infringement by Princeton of the '117, '049, '474 and '872 patents under 35 U.S.C. § 271(e)(2).

48. Plaintiffs are commencing this action within 45 days of receiving the Notice Letter pursuant to 21 U.S.C. § 355(j)(5)(B)(iii).

**COUNT IV: INDUCEMENT TO INFRINGE THE '474 PATENT**

60. Plaintiffs incorporate by reference and reallege paragraphs 1 through 59 above as though fully restated herein.

61. Princeton has knowledge of the '474 patent.

62. If the ANDA Product is approved by the FDA and is sold by Princeton, its use by healthcare providers and/or patients will directly infringe one or more claims of the '474 patent, including at least claims 1, 3-4, 6-7, 9-10 and 12.

63. Princeton's proposed label for the ANDA Product explicitly instructs healthcare providers and/or patients to use the ANDA Product in a manner that will directly infringe one or more claims of the '474 patent, including at least claims 1, 3-4, 6-7, 9-10 and 12.

64. Any use of the ANDA Product by patients will be performed at the direction and control of healthcare providers treating overactive bladder, who in turn are instructed by Princeton in its proposed label for the ANDA Product.

65. If the ANDA Product is approved by the FDA, Princeton will actively induce others including, e.g., healthcare providers and/or patients, to directly infringe one or more claims of the '474 patent, including at least claims 1, 3-4, 6-7, 9-10 and 12. Princeton has acted with knowledge that the induced acts would constitute infringement of the '474 patent.

66. Princeton specifically intends to cause direct infringement by others, e.g., healthcare providers and/or patients.

67. If and when the FDA approves ANDA No. 209475, Princeton will take affirmative steps to induce infringement by, among other things, instructing healthcare providers and/or patients, through Princeton's proposed label, to use the ANDA Product in a manner that directly infringes one or more claims of the '474 patent, including at least claims 1, 3-4, 6-7, 9-

10 and 12. Thus, Princeton will aid, abet, urge, and/or encourage others including, e.g., healthcare providers and/or patients, to directly infringe one or more claims of the '474 patent, and Princeton will affirmatively and specifically intend to cause direct infringement.

68. Princeton's actions will constitute inducement of infringement of the '474 patent pursuant to 35 U.S.C § 271(b).

**COUNT V: CONTRIBUTORY INFRINGEMENT OF THE '474 PATENT**

69. Plaintiffs incorporate by reference and reallege paragraphs 1 through 68 above as though fully restated herein.

70. If ANDA No. 209475 is approved by the FDA, Princeton intends to and will offer to sell, sell, and/or import into the United States the ANDA Product.

71. The ANDA Product constitutes a material part of the inventions covered by the claims of the '474 patent and has no substantial non-infringing uses.

72. On information and belief, Princeton has had and continues to have knowledge that the ANDA Product is especially adapted for a use that infringes the '474 patent, including at least claims 1, 3-4, 6-7, 9-10 and 12.

**COUNT VI: DIRECT INFRINGEMENT OF THE '872 PATENT**

75. Plaintiffs incorporate by reference and reallege paragraphs 1 through 74 above as though fully restated herein.

76. Pursuant to 35 U.S.C. § 271(e)(2), Princeton's submission of ANDA No. 209475 to the FDA seeking approval of the ANDA Product was an act of infringement by Princeton of at least claims 1, 3-4, 6, 8-9 and 11-14 of the '872 patent which cover the method of treating overactive bladder by administering mirabegron, the use for which Princeton seeks FDA approval in its ANDA.

77. Unless Princeton is enjoined by the Court, Plaintiffs will be substantially and irreparably harmed by Princeton's infringement of the '872 patent. Plaintiffs do not have an adequate remedy at law.

**COUNT VII: INDUCEMENT TO INFRINGE THE '872 PATENT**

78. Plaintiffs incorporate by reference and reallege paragraphs 1 through 77 above as though fully restated herein.

79. Princeton has knowledge of the '872 patent.

80. If the ANDA Product is approved by the FDA and is sold by Princeton, its use by healthcare providers and/or patients will directly infringe one or more claims of the '872 patent, including at least claims 1, 3-4, 6, 8-9 and 11-14.

82. Any use of the ANDA Product by patients will be performed at the direction and control of healthcare providers treating overactive bladder, who in turn are instructed by Princeton in its proposed label for the ANDA Product.

83. If the ANDA Product is approved by the FDA, Princeton will actively induce others including, e.g., healthcare providers and/or patients, to directly infringe one or more

claims of the '872 patent, including at least claims 1, 3-4, 6, 8-9 and 11-14. Princeton has acted with knowledge that the induced acts would constitute infringement of the '872 patent.

84. Princeton specifically intends to cause direct infringement by others, e.g., healthcare providers and/or patients.

85. If and when the FDA approves ANDA No. 209475, Princeton will take affirmative steps to induce infringement by, among other things, instructing healthcare providers and/or patients, through Princeton's proposed label, to use the ANDA Product in a manner that directly infringes one or more claims of the '872 patent, including at least claims 1, 3-4, 6, 8-9 and 11-14. Thus, Princeton will aid, abet, urge, and/or encourage others including, e.g., healthcare providers and/or patients, to directly infringe one or more claims of the '872 patent, and Princeton will affirmatively and specifically intend to cause direct infringement.

86. Princeton's actions will constitute inducement of infringement of the '872 patent pursuant to 35 U.S.C § 271(b).

**COUNT VIII: CONTRIBUTORY INFRINGEMENT OF THE '872 PATENT**

87. Plaintiffs incorporate by reference and reallege paragraphs 1 through 86 above as though fully restated herein.

88. If ANDA No. 209475 is approved by the FDA, Princeton intends to and will offer to sell, sell, and/or import into the United States the ANDA Product.

89. The ANDA Product constitutes a material part of the inventions covered by the claims of the '872 patent and has no substantial noninfringing uses.

90. On information and belief, Princeton has had and continues to have knowledge that the ANDA Product is especially adapted for a use that infringes the '872 patent, including at least claims 1, 3-4, 6, 8-9 and 11-14.

91. On information and belief, Princeton has had and continues to have knowledge that there is no substantial non-infringing use for the ANDA Product.

92. Princeton's actions will constitute contributory infringement of the '872 patent pursuant to 35 U.S.C § 271(c).
