### **FACTS**

8. On November 19, 1996, United States Patent No. 5,576,951 entitled "Automated Sales and Services System" was duly and legally issued to Lawrence B. Lockwood ("Lockwood") as inventor. A true and correct copy of United States Patent No. 5,576,951 is attached hereto as Exhibit "A" and incorporated herein by this reference. Following a reexamination of Patent No. 5,576,951, the United States Patent and Trademark Office issued an Ex Parte Reexamination Certificate, Number US 5,576,951 C1, on January 29, 2008, confirming the validity of all ten (10) original claims and allowing twenty-two (22) additional claims. A true and correct copy of Ex Parte Reexamination Certificate, Number US 5,576,951 C1 is attached hereto as Exhibit "B" and incorporated herein by this reference. (United States Patent No. 5,576,951, together with the additional claims allowed by Ex Parte Reexamination Certificate, Number US 5,576,951 C1, shall hereinafter be referred to as the "'951 Patent.") On September 1, 2008, Lockwood licensed all rights in the '951 Patent to Plaintiff. Plaintiff is the exclusive licensee of the entire right, title and interest in and to the '951 Patent, including all rights to enforce the '951 Patent and to recover for infringement. The '951 Patent is valid and in force.

9. On March 7, 2006, United States Patent No. 7,010,508 entitled "Automated Multimedia Data Processing Network" (the "'508 Patent") was duly and legally issued to Lawrence B. Lockwood as inventor. A true and correct copy of the '508 Patent is attached hereto as Exhibit "C" and incorporated herein by this reference. On September 1, 2008, Lockwood licensed all rights in the '508 Patent to Plaintiff. Plaintiff is the exclusive licensee of the entire right, title and interest in and to the '508 Patent, including all rights to enforce the '508 Patent and to recover for infringement. The '508 Patent is valid and in force.

10. On or about June 27, 2011, Plaintiff sent Fifth & Pacific a letter informing Fifth & Pacific of the '951 Patent and the '508 Patent and that Defendants' actions, as more fully described below, constituted infringement of the '951 Patent and the '508 Patent.

11. As more fully laid out below, Defendants have been and are now infringing the '951 Patent and the '508 Patent, in this judicial district and elsewhere, by selling and distributing their products and services using electronic commerce systems, which, individually or in combination, incorporate and/or use subject matter claimed by the '951 Patent and the '508 Patent.

### **FIRST CLAIM FOR RELIEF**

#### **(Direct Infringement of the '951 Patent, in Violation of 35 U.S.C. § 271(a))**

12. Plaintiff refers to and incorporates herein by reference paragraphs 1-9.

13. The claims of the '951 Patent relate to "a computer search system for retrieving information" and "a computerized system for selecting and ordering a variety of information, goods and services," each comprising a variety of features.

14. The Defendants' Websites are "computer search system[s] for retrieving information" and "computerized system[s] for selecting and ordering a variety of information, goods and services" practicing the claims of the '951 Patent.

15. By way of example only, and not limited to it, Defendants' Websites infringe Claim 10 of the '951 Patent in that, for example, the Defendants' Websites provide a system that

practices all of the limitations of the claim and on which their customers search for information about products and purchase products, including:

a. The Websites are computerized systems for selecting and ordering a variety of information, goods and services.

b. The Websites include a plurality of computerized data processing installations (the web server and its supporting systems) programmed for processing orders for said information, goods and services.

c. The Websites are operated through at least one computerized station (the customer's computer).

d. The web server of the Websites and that Defendants' customers' computers practice all of the remaining limitations of Claim 10 of the '951 Patent.

16. Defendants, therefore, by the acts complained of herein, are making, using, selling, or offering for sale in the United States, including in the Eastern District of Texas, products and/or services embodying the invention, and have in the past and are now continuing to infringe the '951 Patent, either literally or under the doctrine of equivalents, in violation of 35 U.S.C. § 271(a).

17. Defendants threaten to continue to engage in the acts complained of herein and, unless restrained and enjoined, will continue to do so, all to Plaintiff's irreparable injury. It would be difficult to ascertain the amount of compensation that would afford Plaintiff adequate relief for such future and continuing acts, and a multiplicity of judicial proceedings would be required. Plaintiff does not have an adequate remedy at law to compensate it for the injuries threatened.

18. By reason of the acts of Defendants alleged herein, Plaintiff has suffered damage in an amount to be proved at trial.

19. Plaintiff is informed and believes, and on that basis alleges, that the infringement by Defendants is willful, wanton, and deliberate, without license and with full knowledge of the

'951 Patent, thereby making this an exceptional case entitling Plaintiff to attorneys' fees and enhanced damages.

### **SECOND CLAIM FOR RELIEF**

#### **(Inducing Infringement of the '951 Patent, in Violation of 35 U.S.C. § 271(b))**

20. Plaintiff refers to and incorporates herein by reference paragraphs 1-12.

21. Plaintiff is informed and believes, and on that basis alleges, that Defendants have actively and knowingly induced infringement of the '951 Patent, in violation of 35 U.S.C. § 271(b) by, among other things, inducing their customers (the endusers of their Websites) to utilize their own computers in combination with their Websites, and incorporated and/or related systems, to search for and order information and products from their Websites in such a way as to infringe the '951 Patent.

22. By reason of the acts of Defendants alleged herein, Plaintiff has suffered damage in an amount to be proved at trial.

23. Defendants threaten to continue to engage in the acts complained of herein and, unless restrained and enjoined, will continue to do so, all to Plaintiff's irreparable injury. Plaintiff does not have an adequate remedy at law.

24. Plaintiff is informed and believes, and on that basis alleges, that the infringement by Defendants is willful, wanton, and deliberate, without license and with full knowledge of the '951 Patent, thereby making this an exceptional case entitling Plaintiff to attorneys' fees and enhanced damages.

### **THIRD CLAIM FOR RELIEF**

#### **(Direct Infringement of the '508 Patent, in Violation of 35 U.S.C. § 271(a))**

25. Plaintiff refers to and incorporates herein by reference paragraphs 1-9.

26. The claims of the '508 Patent relate to "an automated multimedia system for data processing for delivering information on request to at least one user," comprising a variety of features.

27. The Defendants' Websites are "an automated multimedia system for data processing for delivering information on request to at least one user," practicing the claims of the '508 Patent.

28. By way of example, only, and not limited to it, Defendants' Websites infringe Claim 8 of the '508 Patent in that, for example, Defendants' Websites provide a system that practices all of the limitations of the claim and on which their customers search for information about products, including:

a. The Websites are an automated multimedia system for data processing for delivering information on request to at least one user. That is, it uses text and graphics, among other means, to deliver product information and other information to Defendants' customers.

b. The Websites include at least one computerized station (the server and its supporting systems).

c. The web server(s) of the Websites practice all of the remaining limitations of Claim 8 of the '508 Patent.

29. Defendants, therefore, by the acts complained of herein, are making, using, selling, or offering for sale in the United States, including in the Eastern District of Texas, products and/or services embodying the invention, and have in the past and are now continuing to infringe the '508 Patent, either literally or under the doctrine of equivalents, in violation of 35 U.S.C. § 271(a).

30. Defendants threaten to continue to engage in the acts complained of herein and, unless restrained and enjoined, will continue to do so, all to Plaintiff's irreparable injury. It would be difficult to ascertain the amount of compensation that would afford Plaintiff adequate relief for such future and continuing acts, and a multiplicity of judicial proceedings would be required. Plaintiff does not have an adequate remedy at law to compensate it for the injuries threatened.

31. By reason of the acts of Defendants alleged herein, Plaintiff has suffered damage in an amount to be proved at trial.

32. Plaintiff is informed and believes, and on that basis alleges, that the infringement by Defendants is willful, wanton, and deliberate, without license and with full knowledge of the '508 Patent, thereby making this an exceptional case entitling Plaintiff to attorneys' fees and enhanced damages.

#### **FOURTH CLAIM FOR RELIEF**

##### **(Inducing Infringement of the '508 Patent, in Violation of 35 U.S.C. § 271(b))**

33. Plaintiff refers to and incorporates herein by reference paragraphs 1-9, 23-25.

34. Plaintiff is informed and believes, and on that basis alleges, that Defendants have actively and knowingly induced infringement of the '508 Patent, in violation of 35 U.S.C. § 271(b) by, among other things, inducing their customers (the endusers of their Websites) to utilize their own computers in combination with their Websites, and incorporated and/or related systems, to search for and order information and products from their Websites in such a way as to infringe the '508 Patent.

35. By reason of the acts of Defendants alleged herein, Plaintiff has suffered damage in an amount to be proved at trial.

36. Defendants threaten to continue to engage in the acts complained of herein and, unless restrained and enjoined, will continue to do so, all to Plaintiff's irreparable damage. Plaintiff does not have an adequate remedy at law.

37. Plaintiff is informed and believes, and on that basis alleges, that the infringement by Defendants is willful, wanton, and deliberate, without license and with full knowledge of the '508 Patent, thereby making this an exceptional case entitling Plaintiff to attorneys' fees and enhanced damages.

#### **JURY DEMAND**

Plaintiff demands a jury trial on all issues so triable.

- A. For an order finding that the '951 Patent is valid and enforceable;
- B. For an order finding that the '508 Patent is valid and enforceable;
